## Information sheet - local infrastructure

Depending on the weather, the workshops are held in the premises provided by the educational institution or outdoors in front of the bus. For a visit to your institution, please check whether the following requirements are met.

### Parking area/parking space

- o Minimum size of the parking space for the vehicle:
  - minimum length 8.5 m, width 2.50 m, vertical clearance 2.9 m
  - vehicle access only on paved roads with a load capacity of up to 4.5 t
- o Sufficient space in front of the bus for setting up tables and chairs in fair weather
- o Access to sanitary facilities (toilet, washbasin)
- o Power connection if possible:
  - Schuko socket, fused with at least 13 A, no more than 30 m away from the parking space to power the equipment on the bus

### Premises

- o Accessibility - the equipment is mounted on rolling cabinets, some can be lifted over small barriers (please inform us whether the premises are accessible via lift)
- o Use of rooms for the workshops (including a time buffer of 60 minutes for setup and disassembly of the mobile workshop that can be used during our visit)
- o Video projector
- o Sufficient number of tables and chairs for working on laptops
- o Electric sockets

### Contact to the roadLAB project management

For booking requests, please complete and return the PDF form "Booking request" to [roadlab@tmw.at](mailto:roadlab@tmw.at) - if you have any further questions, please contact Ilona Stütz on 01/899 98-3560.
